ABOUT US

I S Earth Movers Pvt Ltd is a value driven sustainability based integrated & comprehensive service providers in the field of mining, civil projects & other such earth moving activities.

I S Earth Movers (ISEM) is based on the objective of redefining industry benchmarks through continuous quality improvements and outdoing excellence. Therefore every project at ISEM is treated with undivided attention & top priority so that each project becomes a milestone in the company's endeavor.

ISEM is a key player in north & eastern region excelling mainly in mining, excavation, bulk material handling, pipe laying, erection and other such activities & in order to fulfill the same ISEM is itself the fleet owner of an array of Mining & Construction equipment including machineries like Crawler and telescopic Cranes, Trailers, Excavators, Payloaders, JCB and others. This machinery inventory enables us to fulfill the client requirement & project procurement in the most cost effective & time efficient way possible.

ISEM with over 35 years of experience in the earth moving field has gained immense knowledge & expertise in the earth moving field allowing it to offer services at the most competitive rate and with utmost efficiency & drive so that projects are completed within ascertained time frame & deadline.

WHY US

Competent team consisting of reputed technicians and well trained and skilled manpower
Round the clock troubleshooting and Maintenance facilities
Technically updated infrastructure to carry out the necessary operations
Flexibility in operations and high professionalism in business dealings
Quality check at all the points
